

E Commerce Web Application

SIGMA Group

HAPAT

Strategy:

- The project was considered a real application;
- Plans the right steps for project construction;
- Analyzes existing E-Commerce sites;

Design Phase:

- We designed the application with Adobe XD;
- We planned the workflow;
- We asked the opinion of others (friends / web developers) for the designed prototype;

Development Phase

- Database Architecture;
- Front End Development;
- Back End Development;

Hosting Phase:

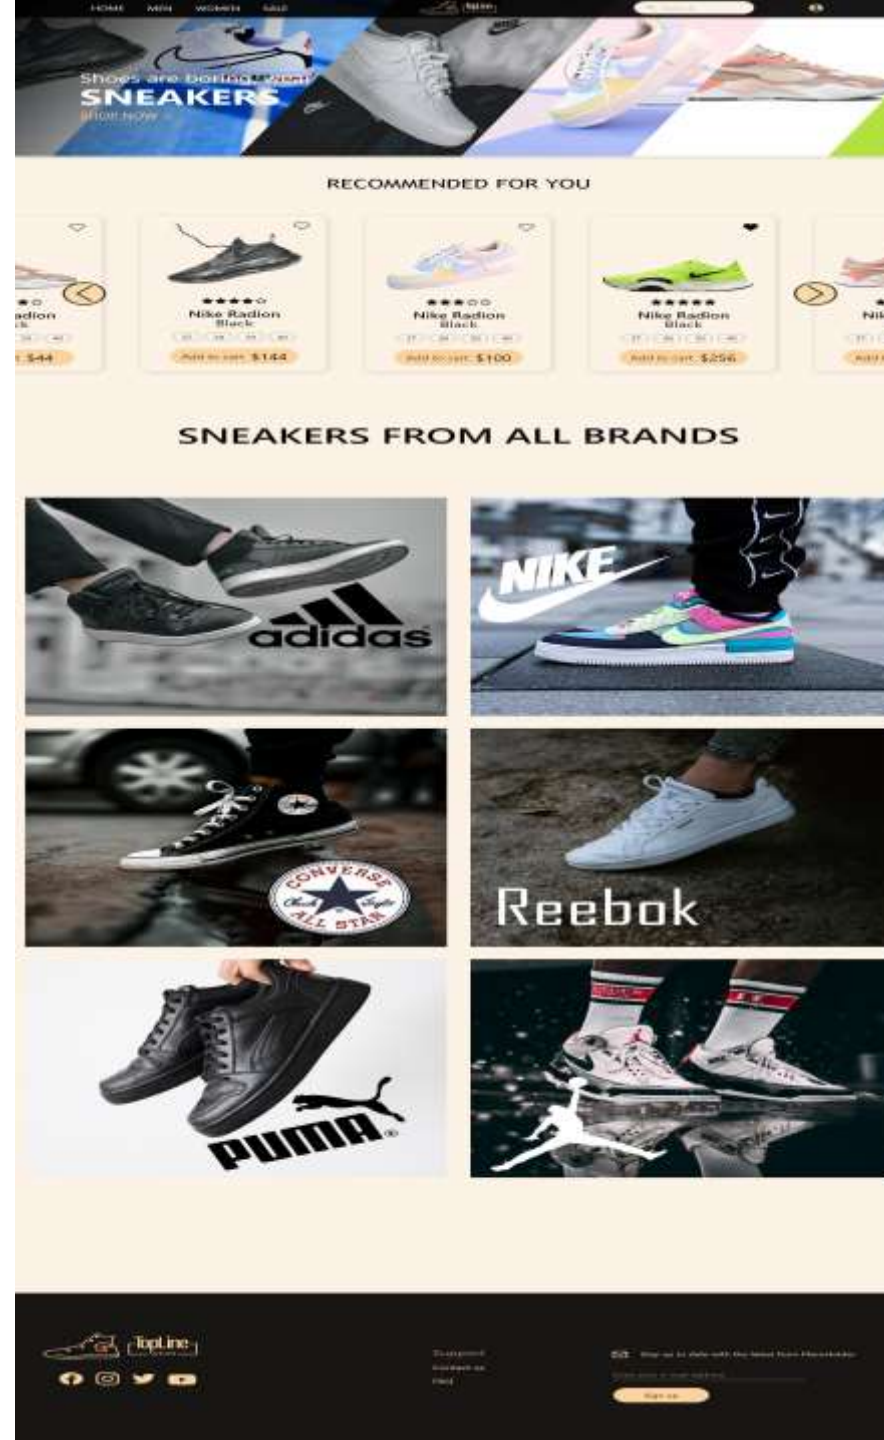

- Web Hosting;
